The Microsoft idea "Bring back Classic Visual Basic, an improved version of VB6" has ~5000 comments and ~12000 votes. That says a lot. PS: It is clear to me that you're the IT maintenance man and not a programmer. There are already tens of thousands of pro comments regarding Visual Basic 6.0, you just have to remove your head out of the sand.

~~Visual Basic 6.0: A giant more powerful than ever ...~~

Many programmers believe that Microsoft was wrong to abandon Visual Basic 6 because their customers have put so much investment into it over more than ten years. As a result, Microsoft has earned a lot of ill will from some VB 6 programmers and some have moved to other languages rather than move to VB.NET.
