For courses in 1- and 2-semester Anatomy & Physiology As an incredibly engaging study guide that can be used either independently or in conjunction with any A&P book, the Anatomy and Physiology Coloring Workbook helps students get the most out of their A&P classes. Dr. Elaine Marieb thoughtfully crafted the text to include a wide range of coloring activities and self-assessments. Students benefit from updated " At the Clinic " questions, a new major tissue figure, and updated terminology. Moreover, the text ' s " Incredible Journey " visualization exercises take students on an exciting adventure through the human body. Each step they take leads them into an amazing world where they can learn more about anatomical structures and physiological functions.

Designed for independent learning, this book teaches the key concepts of physiology in an easy-to-understand way by inviting readers to colour in more than 150 pages of outline drawings.

An Easier and Better Way to Learn Anatomy. The human body is wondrously complex, with 700 muscles, 206 bones, and countless cells and tissues ... but studying and remembering all of them can be overwhelming! Instead of rote memorization, the Anatomy Coloring book helps you take an interactive approach to learning anatomy through coloring. Not only can this take less time than memorizing from textbooks and flashcards, but the process thoroughly fixes anatomical concepts in your mind for easier visual recall later.

The Physiology Colouring Workbook is a comprehensive review of key physiological processes like respiration, digestion, cell membrane polarization, synaptic interaction, reproduction etc.
