crazy cycles of euphoria and hysteria that manage to grip the world but are all-too-soon forgotten. In this unique collection of articles, Michael Lewis - ex-trader and bestselling chronicler of avarice and frenzy in the markets - casts a sceptical eye back over the most panicked-about panics of recent decades. He tells a story of boom and busts, deranged greed, outsized egos and over-inflated salaries, where the only thing that can ever be predicted is our constant inability to predict anything. Using contemporary accounts from commentators such as Joseph Stiglitz, Jeffrey Sachs and Paul Krugman, plus many of his own best writings, Lewis conveys the mood before each catastrophe, what it was like in the heat of the moment, how, afterwards, we tried to explain away the chaos - and then failed to learn from it

Too often, those adults repeat the crimes once perpetrated against them, depend on substances to dull the pain of memory, or choose partners similar to the adults who once abused them. Is there a way out of this darkness? Carol D. Levine, in her heartrending and yet hopeful memoir, *Panic Child*, reveals her childhood of parental neglect, sexual abuse, and the stranger who raped her, and her ascent from the depths of this terrible childhood to a life of service to children who suffered their own nightmares. The strong and steady voice of author Levine is the most powerful reminder that nobody is obliged to repeat the sins of those who harmed us, and that
