Corruption is a very high risk across most sectors in Benin. Petty bribery and systems of patronage are common obstacles, especially when interacting with the judiciary, law enforcement and customs authorities. Public funds are often diverted, harming the implementation of affected projects and effectively deterring foreign investment.

Since 2000, IOM has been producing world migration reports. The World Migration Report 2020, the tenth in the world migration report series, has been produced to contribute to increased understanding of migration throughout the world. This new edition presents key data and information on migration as well as thematic chapters on highly topical migration issues, and is structured to focus on two key contributions for readers: Part I: key information on migration and migrants (including migration-related statistics); and Part II: balanced, evidence-based analysis of complex and emerging migration issues.

Includes statistics.

International migration is high on the public and political agenda of many countries, as the movement of people raises concerns while often eluding states' attempts at regulation. In this context, the 'Migration Without Borders' scenario challenges conventional views on the need to control and restrict migration flows and brings a fresh perspective to contemporary debates. This book explores the analytical issues raised by 'open borders', in terms of ethics, human rights, economic development, politics, social cohesion and welfare, and provides in-depth empirical investigations of how free movement is addressed and governed in Europe, Africa, the Americas and Asia. By introducing and discussing the possibility of a right to mobility, it calls for an opening, not only of national borders, but also of the eyes and minds of all those interested in the future of international migration in a globalising world.
