The Color of Christmas is Black. Christmas is a celebration of the dawning of the light. In the Western World we have combined elements of Pagan rituals with the Christian Mystery of the nativity for a joyous recognition that new Light comes out of Darkness, that the resurrection of life after death is part of the cycle of nature.. Red, green, gold, tinsel, these are the colors associated with ...

Emerging from the darkness. Upon light exposure a completely new developmental phase starts, and the plant shifts from heterotrophic to photoautotrophic growth, a process for which chloroplast development is essential (Gommers and Monte 2018). Plants have evolved a series of photoreceptors to sense light and initiate molecular signaling pathways to transduce the light information.
