The diagnosis determines which type of treatment you need and what needs to be addressed. One of the most important things for the chiropractor to do is to identify the pain producing structure(s), in order to be able to direct the treatment accurately to reduce the pain and promote healing as quickly and effectively as possible.

Diagnosis and Chiropractic treatment

Diagnosis, Treatment and Management of Conditions. Chiropractic is a primary healthcare profession that specialises in the diagnosis, treatment and overall management of conditions that are due to problems with the joints, muscles and nerves, with particular focus on the spine. We assess body performance through FMS and SFMA testing, before we recommend the appropriate treatment plan.

What is Chiropractic? - Diagnosis & Treatment - ProHealth ...

Chiropractic is a treatment where a practitioner called a chiropractor uses their hands to help relieve problems with the bones, muscles and joints. It's considered a type of complementary and alternative medicine (CAM) , which means it's not a conventional medical treatment.

Chiropractic - NHS

These categories of chiropractic diagnosis include: Potentially serious: tumor, infection, fracture, major neurological problem (cauda equina), local open wound or burn, prolonged bleeding (hemophilia), artificial joint implant problems, pacemaker problems, joint infection. See Cauda Equina Syndrome Symptoms.

Chiropractic Diagnosis - Spine-health

Chiropractic Treatment plan takes into consideration various aspects that may affect a condition. For instance, if you have a recurring health issue or symptoms of developing or recurring health issues, this will be kept in mind by the chiropractor.

Chiropractic - Netdoctor

Chiropractic treatment and massage therapy mainly involves safe, often gentle, specific spinal adjustments to free joints in the spine or other areas of the body that are not moving properly. This impaired movement can cause a decrease in functionality of the spine and the body as a whole, leading to possible nerve interference.
