After a long  
feast of  
prosperity in  
the western  
world, the  
crisis in the  
financial  
markets has  
conjured up an  
old spectre -  
the spectre of  
capitalist  
crisis, which  
many thought had

# Where To Download

been finally  
exorcised. On  
past experience,  
a full-blown  
capitalist  
crisis would  
bring with it  
the threat of  
slump, collapse,  
polarisation,  
conflict, and  
even war,  
spreading to all  
parts of the

global economy -  
hence the great  
efforts being  
made to contain  
the present  
downturn. This  
important new  
book by a  
leading  
authority sets  
the financial  
crisis of 2007/8  
in historical  
context and

# Where To Download

assesses its  
global  
consequences,  
how far it might  
go, and what is  
to be done.

Higher education  
in the UK is in  
crisis. The idea  
of the public  
university is  
under assault,  
and both the

future of the  
sector and its  
relationship to  
society are  
being gambled.  
Higher education  
is increasingly  
unaffordable,  
its historic  
institutions are  
becoming  
untenable, and  
their purpose is  
resolutely

instrumental.

What and who  
have led us to  
this crisis?

What are the

in revealing  
those  
alternatives?

intellectual

exploring  
ongoing efforts  
from around the  
world to create

authors offer  
their experience  
and views from  
inside and  
beyond the  
structures of  
mainstream  
higher  
education, in  
order to reflect  
on efforts to  
create  
alternatives. In  
the process the

volume asks: is  
it possible to  
reimagine the  
university  
democratically  
and  
cooperatively?  
If so, what are  
the implications  
for leadership  
not just within  
the university  
but also in  
terms of higher

education's  
relationship to  
society? The  
authors argue  
that mass higher  
education is at  
the point where  
it no longer  
reflects the  
needs,  
capacities and  
longterm  
interests of  
global society.

An alternative role and purpose is required, based upon 'mass intellectuality' or the real possibility of democracy in learning and the production of knowledge.

democracy in a  
globalized

companies  
implementing

there are lots  
of opportunities

Thus, the two  
concepts of  
sustainability

should not be

separately -  
they are closely  
interlinked with  
one another. The  
main goal of

on the company's

structured into  
five possible  
phases of a

the problem,

New forms of

visible and  
active in

European  
countries. This

civic, and
