" We need our neighbors and community to stay healthy, produce jobs, raise our children, and care for those on the margin. Institutions and professional services have reached their limit of their ability to help us. The consumer society tells us that we are insufficient and that we must purchase what we need from specialists and systems outside the community. We have become consumers and clients, not citizens and neighbors. John McKnight and Peter Block show that we have the capacity to find real and sustainable satisfaction right in our neighborhood and community. This book reports on voluntary, self-organizing structures that focus on gifts and value hospitality, the welcoming of strangers. It shows how to reweave our social fabric, especially in our neighborhoods. In this way we collectively have enough to create a future that works for all. "

Modern culture ' s worship of " how-to " pragmatism has turned us into instruments of efficiency and commerce—but we ' re doing

more and more about things that mean less and less. We constantly ask “ how? ” and still struggle to find purpose and act on what matters. Instead of acting on what we know to be of importance, we wait for bosses to change, we seek the latest fad, we invest in one more degree. Asking how keeps us safe—instead of being led by our hearts into uncharted territory, we keep our heads down and stick to the rules. But we are gaining the world and losing our souls. Peter Block puts the “ how-to ” craze in perspective and presents a guide to the difficult and life-granting journey of bringing what we know is of personal value into an indifferent or even hostile corporate and cultural landscape. He raises our awareness of the trade-offs we ’ ve made in the name of practicality and expediency, and offers hope for a way of life in which we ’ re motivated not by what “ works, ” but by the things that truly matter in life—idealism, intimacy, depth and engagement.

Goes beyond the spirit of empowerment to discuss the benefits of companies that offer equity and partnership for its employees at all levels, discussing what stewardship means, management accountability, quality control, and human resources. Reprint. 30,000 first printing. \$40,000 ad/promo. IP.

Most of our communities are fragmented and at odds within themselves. Businesses, social services, education, and health care each live within their own worlds. The same is true of individual citizens, who long for connection but end up marginalized, their gifts overlooked, their potential contributions lost. What keeps this from changing is that we are trapped in an old and tired conversation about who we are. If this narrative does not shift, we will never truly create a common future and work toward it together. What Peter Block provides in this inspiring new book is an exploration of the exact way community can emerge from fragmentation. How is community built? How does the transformation occur? What fundamental shifts are involved? What can individuals and formal leaders do to create a place they want to inhabit? We know what healthy communities look like—there are many success stories out there. The challenge is how to create one in our own place. Block helps us see how we can change the existing context of community from one of deficiencies, interests, and entitlement to one of possibility, generosity, and gifts. Questions are more important than answers in this effort, which means leadership is not a matter of style or vision but is about getting the right people together in the right way: convening is a more critical skill than commanding. As he explores the nature of community and the dynamics of transformation, Block outlines six kinds of conversation that will create communal accountability and commitment and describes how we can design physical spaces and structures that will themselves foster a sense of belonging. In *Community*, Peter Block explores a way of thinking about our places that creates an opening for authentic communities to exist and details what each of us can do to make that happen.

"The Other Kingdom is about reframing how society views its communal identity. The book proposes to identify what has been considered sacred language and use it as an opening into the experience of community and the commons. It lays out a faith narrative without the negative traces of sectarianism. Readers are dared to imagine the human benefit of an alternative to the market ideology that defines our culture, called the Neighborly Covenant because it enlivens and humanizes the social order. The Other Kingdom proposes language for alternative ways to a covenantal culture, one that is active beyond election years and has different substance in defining society's communal identity"--
