Cracking the Intercollegiate General Surgery FRCS Viva: A Revision Guide: Ball, Elizabeth, Walsh, Stewart, Tang, Tjun: Amazon.sg: Books

The FRCS examination is the last hurdle on the road to independent practice as a consultant surgeon in the United Kingdom and Ireland. The voce viva portion of the exam can be particularly challenging for candidates who must demonstrate not only their knowledge of various surgical topics, but also their reasoning and decision-making abilities. Cracking the Intercollegiate General Surgery FRCS Viva: A Revision Guide provides the framework and knowledge to pass the non-specialty sections of the FRCS (General Surgery) viva and clinical examination. This comprehensive revision text covers all essential topics in critical care, emergency and general surgery as well as critical appraisal of research papers, basic statistics and data manipulation for the academic section. Highlights: Layout: A unique approach recreates the structure and content of each individual viva Past questions: Actual viva questions pooled from successful FRCS candidates are included so you know what worked Contributors: Insight from experienced clinicians who have trained in the UK higher surgical training system This essential revision guide provides you with the vital points for each topic, presented in a concise, structured manner and referenced where appropriate. It is essential reading for anyone preparing for the FRCS General Surgery exam.

Currently, clinical training for undergraduates is becoming more difficult. To be a good doctor with adequate training, one must be exposed to many different patients with a variety of pathologies and diseases. At present, we are unable to achieve this, mainly due to the increase in the medical student cohort each year and fewer in-patients. In short, the student-to-patient ratio is worsening, thus lessening students' contact with patients and learning experience. Fortunately, with the objective structured clinical examination (OSCE) format, undergraduate and postgraduate teaching and examination have become more efficient. This book will be very useful for students preparing for surgical OSCEs by covering the different clinical scenarios that a certain condition might present, and allowing self-testing of the questions as well as learning from the provided answers.

"Cracking the Intercollegiate General Surgery FRCS Viva: A Revision Guide 2e provides the framework and knowledge to pass the non-specialty sections of the FRCS (General Surgery) viva and clinical examination. This comprehensive and up to date revision text covers all essential topics in critical care, emergency and general surgery as well as critical appraisal of research papers, basic statistics and data manipulation for the academic section.This essential revision guide provides you with the vital points for each topic, presented in a concise, structured manner and referenced where appropriate. It is essential reading for anyone preparing for the FRCS General Surgery exam"--

FRCS General Surgery: 500 SBAs and EMIs offers the most comprehensive coverage of practice questions for trainees preparing for the FRCS General Surgery exam. Presented in a clear layout, chapters are mapped to the syllabus to deliver structured revision in all the key topics. Featuring a wealth of practice questions and fully descriptive answers, this book provides the essential revision tool to maximise chances of exam success. 500 Single Best Answers and Extended Matching Items, reflecting topics encountered in the exam Answers feature concise, case-based descriptions to consolidate knowledge Highly illustrated to improve understanding of key concepts Extensive evidence-based references to relate theory to clinical practice

Emergency Surgery provides both a practical guide and an understanding of the issues that need to be considered in the management of emergency surgery patients. It presents a clear account of the key issues involved in the assessment, investigation, resuscitation and surgical management of patients who present to the on-call emergency team. It considers the full breadth of issues encountered in these patients including anaesthesia, pre-op resuscitation/optimization, and initial post-operative care including preliminary high dependency/critical care, as well as the complications and acute issues found in acute surgical patients on the ward. It is ideal for surgical trainees as well as trainees from other specialities involved in the care of these complex and challenging patients. This title is also available as a mobile App from MedHand Mobile Libraries. Buy it now from Google Play or the MedHand Store.

Scott-Brown's Otorhinolaryngology is used the world over as the definitive reference for trainee ENT surgeons, audiologists and trainee head and neck surgeons, as well as specialists who need detailed, reliable and authoritative information on all aspects of ear, nose and throat disease and treatment. Key points: accompanied by a fully searchable electronic edition, making it more accessible, containing the same content as the print edition, with operative videos and references linked to Medline highly illustrated in colour throughout to aid understanding updated by an international team of editors and contributors evidence-based guidelines will help you in your clinical practice features include key points, best clinical practice guidelines, details of the search strategies used to prepare the material and suggestions for future research new Endocrine section. Scott-Brown will provide trainee surgeons (ENT and Head and Neck), audiologists and ENT physicians with quick access to relevant information about clinical conditions, and provide them with a starting point for further research. The accompanying electronic edition, enhanced with operative videos, will enable both easy reference and accessibility on the move.

Success in any exam requires careful preparation, background reading and, importantly, prior self-assessment. Containing 1000 Single Best Answer (SBA) questions for the MRCS Part A, this book offers surgical trainees a wealth of exam practice, written and edited by expert authors with recent experience of the MRCS syllabus. Get Through MRCS Part A:

With over 1000 questions, MCQs and EMQs in Surgery is the ideal self-assessment companion guide to Bailey & Love's Short Practice in Surgery. The book assists readers in their preparation for examinations and to test their knowledge of the principles and practice of surgery as outlined within Bailey & Love. Sub-divided into 13 subject-specific sections, both MCQs and EMQs provide a comprehensive coverage of the surgical curriculum as well as the core learning points as set out in Bailey & Love: Each section emphasises the importance of self-assessment within effective clinical examination and soundly based surgical principles, while while taking into account the latest developments in surgical practice. MCQs and EMQs in Surgery is an excellent companion to Bailey & Love and provides a valuable revision tool for those studying for MRCS.
