Operation Ranch Hand, 1962-1971. Herbicidal Warfare is an organizational history of the 12th Air Commando Squadron that flew the airplanes that dropped chemical defoliants on South Vietnam.

Herbicidal Warfare \u2013 V. V. A. N. Z.

Operation Ranch Hand was a U.S. military operation during the Vietnam War, lasting from 1962 until 1971. Largely inspired by the British use of 2,4,5-T and 2,4-D during the Malayan Emergency in the 1950s, it was part of the overall chemical warfare program during the war called "Operation Trail Dust". Ranch Hand involved spraying an estimated 20 million U.S. gallons of defoliants and herbicides over rural areas of South Vietnam in an attempt to deprive the Viet Cong of food and vegetation cover.

Operation Ranch Hand - Wikipedia

Herbicidal warfare : the Ranch Hand Project in Vietnam. [Paul Frederick Cecil] -- In 1961, the United States Air Force began using chemical herbicides as a weapon in South-east Asia. The tactic lasted only ten years, but the controversy it provoked continues to this day. ...

"The term Operation Ranch Hand was the military code name for the spraying of herbicides from U.S. Air Force aircraft in Southeast Asia from 1962 through 1971." "Between 1962 and 1971, Ranch Hand sprayed about 19 million gallons of herbicide, 11 million of which consisted of Agent Orange.

Operations Ranch Hand and Trail Dust

Herbicidal warfare is the use of substances primarily designed to destroy the plant-based ecosystem of an area. Although herbicidal warfare use chemical substances, its main purpose is to disrupt agricultural food production and/or to destroy plants which provide cover or concealment to the enemy, not to asphyxiate or poison humans and/or destroy human-made structures. Herbicidal warfare has been forbidden by the Environmental Modification Convention since 1978, which bans "any technique for cha

During the Vietnam War the US Air Force engaged in a program of herbicidal warfare known as 'Operation Ranch Hand'. For ten years the Air Force sprayed forests in South Vietnam, affecting some 5 million acres of forest, or some 20% of all the forests in South Vietnam.

Agent Orange in Vietnam (Famous Photo) - On This Day

These two trajectories converged in 1961 with Operation Ranch Hand, the joint U.S.-South Vietnamese mission to use herbicidal warfare as a means to defoliate large areas of enemy territory.Driven by the idea that humans were altering the world's ecology for the worse, a group of scientists relentlessly challenged Pentagon assurances of safety, citing possible long-term environmental and health effects.

The Invention of Ecocide: Agent Orange, Vietnam, and the ...

Success with Project AGILE field tests with herbicides in South Vietnam in 1961 led to the formal herbicidal program Trail Dust (1961\u20131971). Operation Ranch Hand, an Air Force program to use C-123K aircraft to spray herbicides over large areas was one of many programs under Operation Trail Dust. The aircrews charged with spraying the defoliant used a sardonic motto-"Only you can prevent forests"-a shortening of the U.S. Forest Services famous warning to the general public "Only you can ...
