communication principles and theories through the use of commonplace experiences, such as relationships with roommates, friends and co-workers. The book aims to motivate students to critically think about their own relational communication; it also peaks student interest in social science research.

**Abstract:** Part of a series on speech communication, this book presents the authors' theory of interpersonal communication. This theory, introduced in chapter one, is based on a continuum of interpersonal communication which ranges from highly impersonal to highly personal. Throughout the text the authors have included exercises, activities, and discussion questions to help the reader use this theory to improve interpersonal communication. The chapters address the following topics: communication behavior, personal communication, honesty, validation, trust, alienation, psychological health, and current research.

The Fourth Edition of this highly successful textbook provides a unique and comprehensive introduction to the study and understanding of human relationships. Fresh insights from family studies, developmental psychology, occupational and organizational psychology also combine to bring new perspectives to this thorough survey of the field. Thoroughly updated, with new chapters on: relating difficulty; "small media" technology and relationships, and practical applications, the Fourth Edition offers a fully up-to-date and authoritative review of the field.
