The Imperial Star is a great choice of artichokes for the northwest vegetable garden. Lettuces. Lettuces need cooler temperatures and are easy to grow which makes them ideal for the northwest vegetable garden in early spring. Another great aspect of growing lettuces are the wide variety of them to choose from.

~~5 Vegetables That Grow Well in the Northwest | Veggie Gardener~~

You can plant cool-season vegetables earlier in the spring (like late February), including Asian greens, lettuce, radishes, kale, and peas. For heat-loving warm-season vegetables, wait until the soil and the weather have warmed up. Tomatoes, squash, and bush beans shouldn't go out before April or May.

~~Growing Vegetables in the Pacific Northwest~~

Listed by product name, this guide outlines the months that each fruit or vegetable is typically grown and harvested from farms throughout the Pacific Northwest. Apples: August through November. Apricots: June and July. Artichokes: September and October. Arugula: May through December.

~~Pacific Northwest Seasonal Fruits and Vegetables~~

September in the Northwest is a great time to add new perennials or to fill empty spots in your garden beds. Your gardening to-do list for autumn should include planting tulips, crocus, daffodils, and other spring bulbs. Gardeners in milder climates can plant bulbs until early December, but those in higher elevations should get bulbs in the ground a few weeks earlier.
