Governance

Ocean governance is the conduct of the policy, actions and affairs regarding the world's oceans. Within governance, it incorporates the influence of non-state actors, i.e. stakeholders,

Access Free Ocean

NGOs and so forth, therefore the state is not the only acting power in policy making.

However, in terms of the ocean, this is a complex issue because it is a commons that is not [owned] by any single nation/state. The consequences of this has resulted in humankind abusing the oceans [resources, by ...

Ocean Governance - an
overview |

ScienceDirect Topics

The concept of the

“Blue” Economy (or

Blue Growth) has

emerged over the last

decade as an

Access Free Ocean

increasingly important new direction for the global economy. The Blue Economy refers to an ocean based economic model which employs sustainable technologies and infrastructure to secure growth whilst also protecting our oceans.

Blue Economy □ Ocean
Governance

Access Free Ocean

The Blue Economy is about the sustainable development and use of our ocean resources to achieve economic objectives. Countries like Solomon Islands rely heavily on the ocean for sustenance, life and national economy.

'It's about moving past business-as-usual':
