instruments for social change—to save his country ’ s children. Charles Dickens is best known for his contributions to the world of literature, but during his young life, Dickens witnessed terrible things that stayed with him: families starving in doorways, babies being “ dropped ” on streets by mothers too poor to care for them, and a stunning lack of compassion from the upper class. After his family went into debt and he found himself working at a shoe-polish factory, Dickens soon realized that the members of the lower class were no different than he, and, even worse, they were given no chance to better themselves. It was then that he decided to use his greatest talent, his writing ability, to tell the stories of those who had no voice. In this book, award-winning author Andrea Warren takes readers on a journey into the workhouses, slums, factories, and schools of Victorian England, and into the world of a beloved writer who used his pen to do battle on behalf of the poor, becoming one of the greatest reformers of his or any age.

Describes the journey many orphan children took looking for families and homes to call their own.

When twelve-year-old Jack Mandelbaum is separated from his family and shipped off to the Blechhammer concentration camp, his life becomes a never-ending nightmare. With minimal food to eat and harsh living conditions threatening his health, Jack manages to survive by thinking of his family. Supports the Common Core State Standards

Meet Lucy McRae and two other young people, Willie Lord and Frederick Grant, all survivors of the Civil War's Battle for Vicksburg. In 1863, Union troops intend to silence the cannons guarding the Mississippi River at Vicksburg – even if they have to take the city by siege. To hasten surrender, they are shelling Vicksburg night and day. Terrified townspeople, including Lucy and Willie, take shelter in caves – enduring heat, snakes, and near suffocation. On the Union side, twelve-year-old Frederick Grant has come to visit his father, General Ulysses S. Grant, only to find himself in the midst of battle, experiencing firsthand the horrors of war. "Living in a cave under the ground for six weeks . . . I do not think a child could have passed through what I did and have forgotten it." – Lucy McRae, age 10, 1863  
Period photographs, engravings, and maps extend this dramatic story as award-winning author Andrea Warren re-creates one of the most important Civil War battles through the eyes of ordinary townspeople, officers and enlisted men from both sides, and, above all, three brave children who were there.

The author recounts her childhood in late-nineteenth-century Nebraska, describes her adult life on a ranch, and discusses her lifelong interest in making quilts

children were orphaned by the Vietnam War. This affecting true account tells the story of Long, who, like more than 40,000 other orphans, is Amerasian -- a mixed-race child -- with little future in Vietnam. Escape from Saigon allows readers to experience Long's struggle to survive in war-torn Vietnam, his dramatic escape to America as part of "Operation Babylift" during the last chaotic days before the fall of Saigon, and his life in the United States as "Matt," part of a loving Ohio family. Finally, as a young doctor, he journeys back to Vietnam, ready to reconcile his Vietnamese past with his American present. As the thirtieth anniversary of the end of the Vietnam War approaches, this compelling account provides a fascinating introduction to the war and the plight of children caught in the middle of it.
