A wonderful collection of one hundred poems written in motorcycle lingo and style. Packed with wit, intertwining playful thoughts and humor. These poems are short, to the point and quick to put a smile on any bikers face.

vengeful, adventurous, calm, feelings that should be put to a song. So if you are interested please read on.

In writing this book, I chose to use unusual appeal, with personal vulnerability, while instilling unstructured abstract, raw writing techniques. Pure, true to life, straight from the heart, original rhyme schemes. Setting a foundation for interesting short stories and poems with a lyrical twist. I do not claim or perceive to use any set formula. My ultimate goal is to capture the reader's mind by originality. Not by following any other interpretation, rules, or guide lines. I hope to touch and relate to readers of all walks of life, in seeking answers through fiction and non-fiction experiences, by using humorous and hardship situations in real life in order to enlighten one's mind. In the day to day drudgery of life, one digs deep down in their soul to find fulfillment within themselves. To make a balance for one's life. By writing, a to the point, short story with a touch of poetic, rhythmic, writing style (found in Country music songs, only lacking the melody). I hope to captivate in the reader's mind an interesting detail of mine and others life experiences.

A fascinating, if sometimes quirky, marriage of objectivist style and biker spirit ... The result is an infectious exuberance that is often

missing in so much of today's poetry. --Michael Schumacher, The Milwaukee Journal.

This book is based on user submissions received by Walter F. Kern while he was the Motorcycles Guide at About.com and also during his current assignment as Editor of Motorcycle Views, which he founded. The book is an anthology of motorcycle haiku poems including seven original poems written by Walter. The other authors are motorcyclists from all walks of life. They have created short 3-line, 17-syllable haiku poems that reflect their love of riding motorcycles. Haiku is a three-line unrhymed verse with the first line containing five syllables, the second line containing seven syllables and the last line containing five syllables. Sometimes the verse has a seasonal theme. Haiku is an old literary, poetic form. Motorcyclists seem to like motorcycle haiku poems. That is evident as you read the 17-syllable haiku poems contained in this book. You will be amazed to find out that the feelings of motorcycle riders can be so succinctly expressed in just three short lines. Here's an example: Fresh wind in my face On an early morning ride Biking therapy Each haiku poem has been titled and then paired up either with a motorcycle picture or a

motorcycle tattoo. Each bike or tattoo picture is described, and then Walter offers his own thoughts to link together the poem and the bike or tattoo picture. Some safety or riding tips and philosophy may also be included in the narrative. If you've never read haiku before, you're in for a treat. Sit back and enjoy this book of Motorcycle Haiku Poetry.

Poetry. Biker poet? The words don't seem to fit together. But, not so long ago, neither did cowboy poet. Biker poetry was originally meant to be recited and found its way into performance, or slam, poetry, with readings conducted at every major biker rally. Today, the biker poetry movement is alive and spreading quickly in print form, not only in the US, but all around the world. RUBBER SIDE DOWN provides a look inside this movement, not only through the poetry being written by its members, but also through contributions by established poets like Allen Ginsberg, Thom Gunn and Diana Wakoski; essays on the movement's history and evolution; and photography by noted motorcycle photographer Michael Lichter and others.

"Linked thematically and by recurring motifs, these essays explore
