Constitutional claims. If you or a loved one is or has been a victim of the American criminal justice system, it's safe to assume that you have looked for guidance in one form or another. It's also safe to say that there exists no single, all encompassing, source that will offer relief in every case. What's needed in every case lies within you and the law, that's the desire to do justice. This book is different from all others for two reasons: One, it gives you, in simple terms, an understanding of a right that the United States Constitution guarantees to all people, the right to justice. Two, it provides you resources successfully used by prisoners and is written from the perspective of an American citizen who has been victimized by an overzealous court. This book provides the experience of an actual habeas corpus petitioner filing in Pro Se, in necessity, rather than the hypothetical theory of a law clerk working for the weekend.
