Spectrum TV - Apps on Google Play

A spectrum (plural spectra or spectrums) is a condition that is not limited to a specific set of values but can vary, without steps, across a continuum.The word was first used scientifically in optics to describe the rainbow of colors in visible light after passing through a prism.As scientific understanding of light advanced, it came to apply to the entire electromagnetic spectrum.

Spectrum - Wikipedia

Spectrum definition is - a continuum of color formed when a beam of white light is dispersed (as by passage through a prism) so that its component wavelengths are arranged in order. How to use spectrum in a sentence.
