Creative individuals, by their nature, tend to defy the crowd. They resist merely thinking or doing what others are thinking or doing. Rather, they tend to go off in their own direction, seeking to propose ideas that are both novel and useful in some way.

Creativity — Robert J. Sternberg

Understanding the joint roles of nature and nurture also helps us to understand why siblings are sometimes very different from one another (Plomin and Daniels, 2011). Siblings with the same mum and dad only share half of the genetic influences affecting their development.
