In this fresh perspective on one of the major demographic trends in our history, Weiner skillfully interweaves evidence on women's employment, government social policy, and the contemporary debate about women's sphere to explore the interconnections between patterns of women's work and the ideologies that arose in response to that work. In uniting the sources and methods of social and intellectual history, the author illuminates the changes in women's lives during the past 250 years. Originally published in 1985. A UNC Press Enduring Edition -- UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print. These editions are published unaltered from the original, and are presented in affordable paperback formats, bringing readers both historical and cultural value.

Looks at the likely evolution of the U.S. workforce and workplace over the next 10 to 15 years, focusing on demographics, technology and globalization.

Considers S. 3259, to regulate private employment agencies in D.C.

Death, for bacteria, is not inevitable. Protect a bacterium from predators, and provide it with adequate food and space to grow, and it would continue living--and reproducing asexually--forever. But a paramecium (a slightly more advanced single-cell organism), under the same ideal conditions, would stop dividing after about 200 generations--and die. Death, for paramecia and their offspring, is inevitable. Unless they have sex ... In *Sex and the Origins of Death*, William Clark ranges far and wide over fascinating terrain. Whether describing a 62-year-old man having a ma.

The Subcommittee on Early Childhood, Youth and Families, Committee on Education and the Workforce, U.S. House of Representatives met, pursuant to call, on August 30, 1999 in the Petaluma Community Center, Petaluma, California, with Chairman of the Subcommittee Michael Castle presiding. This document represents the field hearing on how educational technology can be used to improve the academic education of the Nation's children. The hearing continues the examination of this issue, which the Chairman began in his home state of Delaware. Contents include opening statements of Chairman Michael Castle and of Representative Lynn Woolsey, Subcommittee on Early Childhood, Youth and Families, Education and the Workforce, and statements of: Representative Robert Scott, Subcommittee on Early Childhood, Youth and Families, Committee on Education and the Workforce; Ms. Alice Smiler Ostrovsky, Program Manager, Design Your Future, Autodesk Inc., San Rafael, California; Ms. Vanessa Caveney, Intern, Design Your Future; Dr. Greta Viguie, Assistant Superintendent, Cotati-Rohnert Park School District, Rohnert Park, California; Ms. Daisy Dampsky, Director, Safe Havens for Youth, United Way of Sonoma-Mendocino-Lake Counties, Santa Rosa, California; Dr. Janese Swanson, Founder, Girl Tech, San Rafael, California; and Ms. Cindana Cornwell, Vice President of Marketing, Spectraswitch Inc., Santa Rosa, California. Appendixes include the opening statement of Chairman Michael Castle; H.R. 2387, "Getting Our Girls Ready for the 21st Century," introduced by Representative Lynn Woolsey; and statements of: Ms. Alice Smiler Ostrovsky, Ms. Vanessa Caveney, Dr. Greta Viguie, Dr. Janese Swanson, and Ms. Cindana Cornwell. (Includes a table of indexes.) (AEF)

Despite formidable obstacles, a small but growing number of U.S. companies recognize that today's domestic and international markets require them to transform their production process. On the basis of more than ten years of survey data and the evidence of case studies, Eileen Appelbaum and Rosemary Batt analyze the experiences of these companies. Their findings reveal two distinct and coherent models of the new American workplace. One is an American version of team production, which combines the principles of sociotechnical systems with those of quality engineering and which decentralizes the management of work flow and decision making. The other is an American version of lean production, which relies more heavily on managerial and technical expertise, and on centralized coordination and decision making. The authors explain the organizational models from which high-performance firms in the United States have borrowed and outline the policies required to promote more widespread workplace change. They contend that U.S. firms can, in fact, compete successfully, while providing their workers with increased job security, livable wages, and enhanced job satisfaction. Certain to appeal to both union and business leaders, this volume also offers crucial insights to policy makers and to scholars of the new American workplace.
